Australian Products

•**Specification**

The water heater shall be a DUX[®] model 400T2 suitable for mains pressure water supply. The storage cylinder shall be lined with Duro-namel[™] vitreous enamel suitable for operation up to 82°C. Internal anodic corrosion protection shall be provided. The water heater shall be completely insulated with high density polyurethane insulation and protected by a sealed Colorbond[®] metal case with access to the electrical element and thermostat. Electric immersion type, bolt mounted, heating element shall be fitted with an energy rating of ____ Watts and controlled by an adjustable surface mounted thermostat complete with integral high temperature safety cut-out.

•**Local authority requirement**

This product should be installed by a qualified plumber. Local Authority, Water Board and Building Regulations may apply to installation of this product, and you should consult the appropriate bodies on these requirements. Failure to comply may invalidate the product warranty.

**All Dux Proflo water heaters are dual-handed for ease of installation and operate at 240V AC single phase electricity supply. Specification and materials may change without notice. PROFLO & DUX are registered trademarks of Dux Manufacturing Limited.*

THE PROFLO[®] ELECTRIC RANGE NOW COMES WITH A **10 YEAR TANK WARRANTY**

Dux has extended its tank warranty from 7 to 10 years on the Proflo 80 – 400L Australian made electric model range
